

Equity Statement for SR23-3, *On Creation of Committees and Appointments*

SR23-3, *On Creation of Committees and Appointments* establishes committees centered around the D.C. State Board of Education's (State Board) priorities for the upcoming year. The creation and periodic updating of committees enables the State Board to strategize and coordinate around areas of concern for members and to respond to the shifting educational landscape in the District. The updated committee structure will ensure members collaborate more regularly and complete work more efficiently in the service of promoting equity in District schools.
